

# Lake Beautification Project – Entrance Landscaping July 2017

A beautification project for the entrance to the lake was completed just prior to the Fourth of July celebrations. Many thanks to everyone who contributed materials or time to this project. To name a few; Donna Gierst and her family for donating the new entrance sign, time and experience to this project; Lloyd and Diane Woodman for the donation of the boulders; Don Stevens for his assistance in collecting the boulders; Michael & Barbara for their assistance in putting the plants and trees in place; and the WML staff for keeping everything funning smoothly during the work process and for assisting in the project as time allowed.

**The boulders have arrived – thank you to Don Stevens for delivering them and the Woodman’s for donating them.**

**Donna Gierst on her tractor clearing the ground of rocks in preparation for the plants and trees.**

**Volunteers assisting in the placement and planting of the trees and bushes.**

**Our new Entrance sign - Thank you to the Gierst family**

**View past the entrance sign**

**View looking toward the exit of the lake**
